

Dear International Students,

We hope that this letter finds you in good health and your situation in this COVID19 pandemic with all the limitations is acceptable. It is a difficult period for all of us but hopefully we shall be over it in the foreseeable future and can get back to our normal university life. We would like to reiterate that it is a great pleasure for our university that foreign students attend our institution, too.

You may have read in the news about a few foreign students from other universities who – being infected by the virus – did not follow the instructions of the relevant authorities and broke the rules of the mandatory quarantine set for them, and behaved aggressively with the medical staff.

Now we are writing to you to draw your attention to the fact that these few students were expelled from Hungary as well as the whole Schengen zone with a three-year ban on their return. We hope that you agree with us that the laws of Hungary must be fully respected in all cases, and violation of epidemiological regulations may have serious consequences. Therefore, we kindly ask everyone to observe and respect the applicable legal regulations at all times! This is the way to be able to overcome the pandemic and return to our normal life as soon as possible.

We hope that you all will live through this difficult time without catching the virus. No doubt, we all need to be very patient and keep calm in good spirit.

We look forward to meeting you all on our premises again when we are over the pandemic. Wishing you the very best of health and a Happy Easter.

Kind Regards,

International Office
